

## **What is RSS?**

**1: RSS (Rich Site Summary or Really Simple Syndication) is a format for delivering regularly changing web content such as news websites and online publishers** We feature RSS News feed to bring you the latest angling and fisheries news updates, breaking fisheries news stories, job vacancies and FIN – Fisheries Ireland News.

## **2: Why RSS? Benefits and Reasons for using RSS**

News feeds allow you to view changing content in real time. You will see our updated news headlines with a summary and this is linked to the relevant news topic on our website. It can be an alternative to subscribing to our email newsletter and thus **ensures additional privacy and convenience**

## **3: What do you need to do to view our news feed ?**

You can subscribe to this service for free but you will need a news reader to view the feed. If you have an updated version of Internet Explorer it's built into your browser. Other browsers such as opera and Firefox support and can detect news feeds. To view our news feed you can download a simple news reader programme. We recommend

<http://www.rssreader.com/download.htm>

<http://www.newsgator.com/>

This link is an example of what news feeds are **BBC NEWS** and will give you more insight into the subject.

## **4: What do I do next ?**

Once you have installed and launched a news reader, you can view our news feed by copying and pasting this Internet address <http://www.shannon-fishery-board.ie/rss/shrfb.rss> or dragging it into your news reader address field. Some programmes allow you to Search for a feed using keywords/phrases e.g. Shannon Regional Fisheries Board weekly Newsletter.
